

Ace Lawrence Clavano

Frontend Developer

I am a current Computer Engineering Student from Polytechnic University of the Philippines. What makes me different from other people is that I am willing to work harder than the next person. I am willing to learn multiple things all at once and I'm open to criticisms because I know that I can use those messages to grow and expand my knowledge. I don't seek perfection in my work, rather I aim for the quality that will be acceptable to anyone that crosses paths with my work.

Education

2019-2021

Senior High School

Polytechnic University of the Philippines

2021-Present

Bachelor's Degree - Computer Engineering

Polytechnic University of the Philippines

Expertise

- Backend
- Frontend
- Web Design
- Game Development
- Graphic Design

Programming Languages

Python

C#

HTML & CSS

JavaScript

Experience

2021-2022

Freshman Year - PUP Sta. Mesa

Student

- Learned the basics of Python
- Created a QR Code Scanner
- Learned the basics of Object-oriented Programming
- Utilized R for Engineering Data Analysis

2022-2023

Second Year - PUP Sta. Mesa

Student

- Learned the basics of C#
- Developed games utilizing the UNITY Engine
- Learned about Data Structures and Algorithms and deeper dive in Python Programming
- Learned HTML and CSS
- Currently learning JavaScript

Skill Progressions

HTML 40%

CSS 30%

Python 60%

C# 20%

JavaScript 10%

Backend Development 40%

Game Development 45%

Web Development 15%
